

Foreword

The Office of Institutional Research, Planning, and Assessment (IRPA) is proud to present the second publication of the *Southern Polytechnic State University Fact Book*. Since planning and evaluation occur at all levels of the University, it is essential that pertinent facts about the institution be readily available to everyone. The *Fact Book* is designed to provide current and historical data about Southern Polytechnic.

As you review and use this publication, please note items that you feel should be added or deleted. Continued improvement is our aim, and future publications of the *Fact Book* can be revised to include additional information. Enclosed with your copy of the *Fact Book* is an evaluation form. We ask that you take a moment to help us improve this publication by completing and returning the form. Your suggestions and ideas are appreciated - thank you for your interest. We hope that the contents of this publication will assist you in your efforts to plan, evaluate and continually improve the programs, processes, and services here at Southern Polytechnic.

In addition, we would like to express our gratitude to Ms. Sue Woolard from the Division of Information technology for her support and expertise in compiling this document.
